

## Moki Check

# How do I report an accident?

When you are on the road accidents can happen suddenly and unexpectedly.  
But what do you do in that case?

Cut out the little note and always carry it with you.  
If you are not quite sure how to react in an accident situation,  
you can read it again here to be sure:

### How do I report an accident?

#### call 112

If you don't have a mobile phone,  
borrow one or ask someone  
nearby to make the call for you.

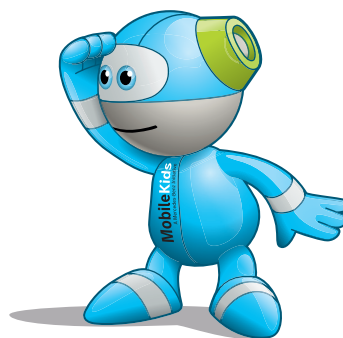

Then answer the questions of  
the emergency staff:

#### Keep in mind:

- Where did the accident happen?
- Who is calling?
- What happened exactly?
- How many persons are injured?
- Wait for further questions

When the ambulance arrives,  
draw attention to yourself  
by waving.
